Que: Create a container for the below bash script (prime.sh)

1. Create a Dockerfile
2. Create a Docker Image

Find the script from here <https://github.com/DARK-art108/Bash-Scripts>

Answer :

Dockerfile

```
FROM centos
COPY ./prime.sh /scripts/prime.sh
RUN chmod +x /scripts/prime.sh
ENTRYPOINT [ "/scripts/prime.sh" ]
```

To create Docker Image:

`docker build -t bashprimescript .`

`docker run bashprimescript 50`
